To celebrate our 10th year of publishing *TIPS & TRICKS*, the #1 Video-Game Tips Magazine, we have assembled this special 10th Anniversary *CODEBOOK*. Inside you'll find tips, codes and passwords for the latest games, plus the best cheats we've discovered over the last 10 years. You may see other imitation codebooks on the newsstand next to this one, but if you dare to compare our contents to theirs, we guarantee that you'll discover three things about us that can't be denied:

1) **We simply have more top-secret info** than any other magazine. Other codebooks may lie about the number of cheats within their pages, but if you do a simple page-by-page comparison for each game system, you'll see that we have more. That's not an opinion, it's a fact.

2) **Our cheats are 100% guaranteed** because we test each and every code before it sees print. No other magazine or website can make this claim; we've been doing it for longer than anybody else and we have a larger in-house game library for testing purposes than any other cheat code provider. Sure, you can find tips on the Internet for free, but a lot of them don't work, and those that do are often so poorly explained that it's impossible to figure out how to activate them. Our goal is to make sure that the cheat works the very first time you try to enter it, and we have come closer to achieving that goal than any other information source; we spend a lot of time writing clear, accurate instructions which can be put to use immediately.

3) **Our CODEBOOK is a much better value** for your gaming dollar. Not only do we have more tips, but our cover price is much lower than than competing publications which sell for \$9.99 or even \$14.99. Why pay more money for fewer codes, especially less reliable ones?

Sorry to keep beating you over the head with hype, but everything we're saying is true; we defy anyone to disprove these verifiable facts. We're tired of other magazines ripping us off, and we're tired of people getting ripped off by competing products that are filled with false information and rushed to the newsstands to make a quick buck.

Whew! Now that we've got those issues off our chest, we hope you enjoy the contents of this very special *CODEBOOK*. If you like what you see, be sure to check out the monthly *TIPS & TRICKS* magazine, from which all of these cheats are derived. In addition to tips and strategy guides for your favorite games, it also includes monthly specialty columns that focus on game collecting, *Final Fantasy* fandom, sports games, game news from Japan and much more.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

The first issue was a success, so issue #2 appeared three months later; inside were strategy guides for *Tempest 2000* on the Atari Jaguar console and a unique game for the 3DO system called *The Horde*, starring TV actor Kirk Cameron. We also busted out all of the codes for the home versions of *NBA JAM*. This was the only one of the first four issues of *Tips & Tricks* which did not feature *Mortal Kombat II* on the cover; oddly, it's also the only one of the four that failed to sell over 100,000 copies on the newsstands. Coincidence?

When you lock in your character with the X button, you'll hear a bicycle bell to confirm that the code has been entered correctly. You can also enter the code with the L2 and R2 buttons if you wish.

Another Day

Use the following code at the character-select screen in Arcade or Original mode. When the character you want to choose is on the screen, press and release R1 once, then hold down R1 and press X. You'll see the words "another day" appear in the lower left corner of the screen. In this mode, you'll have a different starting point and your customers will be in different locations.

No Arrows

From the "Mode Selection" screen, choose either "Arcade" or "Original." At the next menu, highlight the type of game you would like to play, then hold R1 and press START. Continue to hold both buttons until the words "no arrows" appear in the lower left corner of the screen. In this mode, the arrow at the top of the screen will not appear.

No Destination Mark

From the "Mode Selection" screen, choose either "Arcade" or "Original." At the next menu, highlight the type of game you would like to play, then hold L1 and press START. Continue to hold both buttons until the words "no destination mark" appear in the lower left corner of the screen. In this mode, your passenger's destination will only be identified by a single green line at ground level, so you won't be able to see it from a distance like you usually can.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #3
Fall 1994

Here we spilled the codes for 60 secret characters in the arcade version of *NBA JAM Tournament Edition* and dished out 22 blood-soaked pages of *Mortal Kombat II* info. The highlight, though, was a three-page strategy guide for *The Peacekeepers*, a little-known Super NES game. Most people dismissed it as a simple *Final Fight* clone, but after seeing this issue, many readers were surprised at its depth. It was a perfect example of how *Tips & Tricks* can help you to get more out of a game without spoiling the fun.

You can continue to attack the fallen opponent by pressing Up + A + B. Each time you do this, an item will appear. You can continue obtaining items and points indefinitely. When you're ready to move on to the next

opponent, just press the Eject button again. You can repeat this process for every single opponent. If you die, the screen will fade to white. It will stay in that state until you press Eject again. This trick won't work if you defeat an opponent while "Danger Reach" is in effect.

Issue #9
November 1995

We commissioned a Chicago-area photographer to capture the creators of Midway's *WWF Wrestlemania* for a cover shot to accompany our extensive strategy guide and interview. We also blew the doors off the *Mighty Morphin Power Rangers* fighting game for the Super NES and the excellent *Scooby-Doo Mystery* for the Sega Genesis. Unfortunately, this was the worst-selling issue in the magazine's history; another four years would pass before we dared to put an actual photo of a human being on our cover again.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #10
December 1995

Plenty of cool cheats in this issue, including some *Mortal Kombat 3* codes that we sneaked in at the very last minute. *Tekken* notwithstanding, issue #10 also continued the *TIPS & TRICKS* tradition of publishing strategy guides for really obscure games that a lot of people probably never even heard of, including *Light Crusader*, *Virtual Hydride*—and wait for it—*Power Instinct Legends*, a coin-op fighting game that was installed at less than a dozen American arcades! It's a miracle that we lasted two years, let alone ten!

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #16
June 1996

If you played arcade games during the mid-'90s, you should know that *Area 51* was the highest-grossing arcade game of 1996. No other magazine delivered this much coverage of the game, which was loaded with the kind of secrets and hidden features that we thrive on. Other arcade hits inside: *Fighting Vipers* and *Soul Edge*. We even devoted a few pages to *Baku Baku*, the only Sega Game Gear strategy guide we ever produced. 1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #24
February 1997

Virtua Fighter 3 may not have been the smash hit that everybody expected it to be, but it was an obnoxiously expensive arcade machine with state-of-the-art components, so we felt comfortable devoting the cover and 12 inside pages to the game. We also featured the bizarre PlayStation RPG *Persona* and an old friend, Sonic the Hedgehog, whose new game *Sonic 3-D Blast* had just been released for the Genesis and Saturn systems. This was the first issue in which the Nintendo 64 got its own "tips" section.

Issue #25
March 1997

This issue included a double-sided *Mario Kart 64* pin-up with an in-depth strategy guide to boot. Also featured: *Virtua Cop 2*, *Samurai Shodown IV* and *K-1: The Arena Fighters*. Finally, our coverage of the Genesis *Virtua Fighter 2* marked the last time we ever did a strategy guide for a 16-bit title. We tried to include new tips for both the Super NES and Genesis through the end of the year, but there were so few new games coming out by then that we finally discontinued regular 16-bit content in 1998.

Money Tree

Search your town for a glowing spot on the ground; you'll find one per day. Dig up the glowing spot with your shovel to find bells. Notice that the hole is still glowing after you remove the bag of money. If you bury some bells in that spot, it may grow into a "money tree" that drops bags of bells like fruit. (The bells won't reappear after a few days the way fruit does.) Try different denominations for different results.

Get the Golden Shovel

Buy an extra shovel from Tom Nook and bury it in the glowing spot (see above) before you leave the acre it's in. If the spot is now too

close to a wall, bush or other obstacle, a special golden tree may appear. Within a few days, it may bear fruit in the form of a special golden shovel. The golden shovel can be used to dig up bells from random spots all over your town. You can also use it to find rare items on the island by using the following method: Bury unwanted furniture on the island, then leave the golden shovel there along with various kinds of fruit. Playing on the Game Boy Advance, feed your islander fruit until he or she has a very happy, squinting smile, then have the islander dig up the furniture with the golden shovel. He or she will replace the furniture items with rare "island" items or even NES games like *Baseball* or *Wario's Woods*. Now return to the island on the GameCube to retrieve your golden shovel and dig up the rare items the islander buried.

Get the Golden Axe

To get a special golden axe which never breaks, you must maintain what the wishing well considers to be a "perfect" town as determined by the following criteria:

BALDUR'S GATE: DARK ALLIANCE

Cheat Codes

At the main title screen (when the words "Press Start" appear), hold L + R and enter any of the following codes. A confirmation message will appear upon entering a correct code. If you enter the same code again, the cheat will be deactivated.

Unlimited health—Up, Right, Up, Left, Down,

Left, Down, Right

Unlimited combo meter—Left, Right, Down, Up, Up, Down, Right, Left

All upgrades—Down, Up, Down, Left, Down,

Right, Up, Down

These were dark times in the *TIPS & TRICKS* offices; after some staffers defected to other publications, the in-house editorial team working on our April 1997 issue consisted of just one person! Fortunately, we had some freelance writers helping out with strategy guides for the original *Turok: Dinosaur Hunter*, the underrated PlayStation game *Spider* and a crazy gun game from Konami called *Crypt Killer*, which was apparently inspired by Ray Harryhausen movies like *Jason* and the *Argonauts* and the *Sinbad* trilogy.

- 1) Pull all of the weeds in your entire town and pick up all of the trash from the ground.
 - 2) Plant and/or chop down trees until there are between 12 and 14 trees in every acre where it's possible to do so.
 - 3) Plant lots of flowers (flowers can reverse the negative effects of weeds that you may have missed).
- Once you've done all this, speak to the wishing well and ask it "How are things?" If it says "Everything is perfect! [Town name] is a very liveable place," you must then maintain the town for two full weeks without any lapses in the "perfect" rating. The next player who visits the wishing well after the 14th day will be given a golden axe by the well spirit. If you get any other message from the wishing well, it's probably because you didn't count the trees correctly. To help you determine which acre each tree is in, pay attention to the invisible borderline that causes the screen to scroll into the next acre when you cross it.

Issue #32 October 1997

A very special issue for Halloween. First, it had amazingly detailed strategy guides for *Castlevania: Symphony of the Night*, *Ghost in the Shell*, *Time Crisis*, *Oddworld: Abe's Odyssey*, *Felony 11-79* and *Intelligent Qube*. Second, it had cool tip-filled CD booklets for *Marvel Super Heroes* and *Twisted Metal II* bound in. Finally, we sent the *Tips & Tricks* posse to check out the *Mortal Kombat 4* Road Tour; we got first-hand reports and photos from ten different arcades from coast to coast. We're nationwide, baby!

Issue #33 November 1997

There's an interesting story behind this issue, which featured a 3-D brawler called *Fighting Force* for the PlayStation. The game's publisher offered to render an exclusive image for the cover and asked us how we'd like the characters posed. Since *Fighting Force* was originally developed as a 3-D version of Sega's classic Genesis game *Streets of Rage*, we sent them the artwork from the cover of the *Streets of Rage* box and they posed the characters in a near-perfect duplicate of that original image! Unfortunately, nobody noticed.

RESIDENT EVIL
Special Weapon

If you beat the game in Normal Mode in under five hours, you will start with the Samurai Edge Barry Version gun in your inventory when you play again by choosing the "Once Again..." option. The Samurai Edge is similar to the regular Handgun, except it has infinite bullets and fires three rounds consecutively when you pull the trigger.

Infinite Rocket Launcher

If you beat the game in Normal Mode in under three hours, you will start with the Infinite Rocket Launcher in your inventory when you play again by choosing "Once Again..." at the main menu.

Grenade Launcher Trick

(Note: This trick will only work with Jill. Also, it's possible that using this trick will adversely affect the quantities of other items in your inventory, so try this at your own risk.) With the Grenade Launcher and at least one spare set of unequipped grenade shells of any kind in your inventory, equip the Grenade Launcher and find an item box. When you open the item box, immediately select the set of grenade shells in your inventory and place it in the very first slot in the item box. (The first slot of the item box is selected by default when you first open the box—it usually contains the First Aid Spray when you start the game or the Closet Key if you've already cleared the game once.) Now select the grenade shells occupying the first slot in the item box and combine the shells from the item box directly to your equipped Grenade Launcher. The number of shells displayed under the Grenade Launcher will become corrupted. Now exit the item box; Jill will have 240 shells in her Grenade Launcher when you check her inventory. If you still have unequipped Grenade Launcher ammo in the item box, stay in the item box screen and swap out the grenade shells again. You'll see the 496 shells back in the item box. Now move the 496 shells from the item box into an empty slot in your inventory and exit out of the item box. You'll still have the spare set of 496 shells—and you'll also have 240 shells in the Grenade Launcher if you pulled them from the first item spot the second time you combined them. If you have more than one set of unequipped shells, you can keep swapping them out between the first slot of the item box and the equipped Grenade Launcher to create more shells at any time.

At any time during the game, press **START** to pause, then enter any of the following codes:

can move the object anywhere in the current stage with the D-pad. Also, when in "object" mode, press **B** to change to a different object, **X** to place a copy of that object on the screen or **A** to change back into Sonic and continue play. Use this feature to modify the game's stages or even "draw" hundreds of gold rings on the screen; when you change back into Sonic you can pick them all up.
Sonic the Hedgehog 2: Stage Select
 At the "Sound Test" menu, listen to sounds 19, 65, 09 and 17 in order; you'll hear a chime

Sonic the Hedgehog 3: Stage Select

After the Sega logo appears at the start of the game, you'll see a blurry scene of Sonic rushing toward you. The instant Sonic appears, quickly press **Up, Up, Down, Down, Up, Up, Up, Up**. You'll hear a chime to confirm the code. Note: This is an extremely difficult code to enter. It took us about 100 tries before we got it to work with the GameCube controller. You must press the buttons at a consistent speed, starting at the exact moment when the screen turns black; you should finish entering the code just a split-second before the screen turns pure white. Use a very light touch on the D-pad or analog stick and press **Up** and **Down** evenly, making sure not to touch the diagonals. If you don't hear the chime, just press **Z** and pick "Game Title" to try again. Once you've done it right, press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you a stage-select and sound test menu. The list even includes the names of zones that were taken out of the game before it was released. You can't play these stages, but you can hear the music from them with the Sound Test option. With the code in place, you have access to the following features:

- **System Reset**—Press **START** to pause the game, then press **B** to reset to the title screen.
- **Slow-Motion**—Press **START** to pause, then hold the **A** button to play in slow motion. If you tap the **X** button while paused, you'll advance the action one "frame" at a time.

Sonic the Hedgehog 3: Debug Mode

At the stage-select menu (see above), highlight the name of any stage, hold the **B** button and press **START**; don't release **B** until the stage begins. See the codes for the original *Sonic the Hedgehog* above to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in *Sonic 3*. However, if you get killed when playing in Debug Mode, just press the **A** button quickly before Sonic falls off the screen with the surprised expression on his face; this will change him into an object and freeze the action. Now just use the D-pad to move the object to a safe place and press **A** to change back into a healthy Sonic.

Sonic the Hedgehog 3: Secret Special Stage

At the stage-select menu (see above), select the "Sound Test" option and listen to sound 01, then 03, then 05, then 07; you should hear a chime when you select the last number. Now highlight "Special Stage 2," hold the **B** button and press **START** to play a secret special stage.

Sonic the Hedgehog 3: "Night" Mode

At the stage-select menu (see above), highlight the name of any stage, hold the **X** button and press **START**. This darkens the graphics, making it appear as if you're playing at night.

Sonic & Knuckles: Stage Select

Play through the first stage until you reach one of the ratchet machines that allow you to pull yourself up. Jump and hang on to one of the handles, then—while your character is hanging from the handle—press **Left, Left, Left, Right, Right, Up, Up, Up**; you'll hear a chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **B**; the game should restart. When the title screen reappears, hold the **B** button and press **START** to access the stage-select and sound test menu.

Knuckles in Sonic 2: Stage Select

At the title screen, quickly press **Up, Up, Up, Down, Down, Down, Left, Right, Left, Right**; you'll hear a chime to confirm the code if you've entered it properly. Now hold the **B** button and press **START** to access the stage-select menu.

Sonic 3 & Knuckles: Stage Select

Play through the first stage until you reach one of the swinging vines with the handles on the ends of them. Jump up and grab the handle, then—while your character is swinging from the vine—press **Left, Left, Left, Right, Right, Right, Up, Up, Up**; you'll hear a chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **B**; the game should restart. Press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you the stage-select and sound test menu. Near the upper left corner of the screen is a small number which you can change by pressing the **X** button; this number represents the character you want to play with according to the following legend:

- 00—Sonic and Tails
- 01—Sonic
- 02—Tails
- 03—Knuckles

Sonic 3D Blast: Stage Select/Stage Skip

With this code in place, you can skip stages at any time by pressing **START** to pause, then pressing the **B** button to warp to the next stage.

Sonic Spinball: Stage Select

Choose "Options" from the title menu, then—when the Options menu appears—press **B, Down, A, Down, X, Down, B, A, Up, B, X, Up, A, X, Up**; you'll hear a fanfare to confirm the code. Now return to the title menu and enter one of the following codes:

- Hold **B** and press **START** to warp to the "Lava Powerhouse" stage.
- Hold **A** and press **START** to warp to "The Machine" stage.
- Hold **X** and press **START** to warp to the "Showdown" stage.

Sonic Spinball: See the Credits

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #36 February 1998

The story behind our *Bloody Roar* cover: We saw this striking illustration of the character Yugo in the game's image gallery and asked Sony for that particular piece of art for our cover. When we received the image, we were surprised to find that someone had carefully airbrushed all of the blood from Yugo's fist, face and T-shirt—so our art director painstakingly re-drew all of the little spots of blood that we had seen in the original illustration! This issue also introduced our monthly *Japan Report!* column, now one of our most popular features.

Issue #37 March 1998

At 100 pages, this very special *Resident Evil 2* issue was the largest edition of *Tips & Tricks* yet; it was also the first "perfect-bound" issue (instead of the traditional staples). Besides our in-depth *RE2* coverage, we also featured *Final Fantasy Tactics*, *Mystical Ninja Starring Goumon*, *Snowboard Kids* and another *Mortal Kombat 4* update (for Revision 3). In the something-we'd-rather-forget department, issue #37 featured Part 1 of a three-part *Yoshi's Story* strategy guide that was so bad, we never even printed Part 3.

If you're not one of our Canadian readers, you've probably never seen this one before. There were two covers printed for this issue; the *Re-Boot* cover was created especially for distribution in Canada, where the *Re-Boot* TV show was still airing. The rest of the contents were exactly the same as the April issue shown above. Roughly 10% of our press run featured the Canadian cover price and UPC code, so there are a lot more of the *Rival Schools* issues in existence, but this wasn't meant to be a collectible; it was just a cool experiment.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

One of our best-looking covers features Mega Man, Roll and Data from the criminally underrated PlayStation game *Mega Man Legends*. Continuing our dedication to the arcade underground, we also dished out strategy guides for *Marvel vs. Capcom* and Sega's *Harley-Davidson & L.A. Riders* coin-op. We were the first to deliver every single finishing move for *Mortal Kombat 4*—and if all that wasn't enough, we added coverage of *Panzer Dragoon Saga*, *Breath of Fire III*, *Gran Turismo*, *Speed Racer* and more. A great issue!

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Published between issues 39 and 40, our first *Codebook* featured over 7,000 tips for the PlayStation, Nintendo 64, Saturn, Genesis and Super NES as well as arcade games. The coverline that reads "Contents of This Magazine Under Extreme Pressure" was an in-joke referring to the crazy, long hours that we spent putting this thing together. It was really worth it, though; this was the best magazine of its kind. Later issues had to compete with the low-quality "codebooks" that appeared when competitors started ripping off our idea.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #40
June 1998

There's nothing like a last-minute scoop; in this case, our exclusive recap of the power-up codes and secret characters in the original *NFL Blitz* arcade game. This info was so red-hot, we didn't even have time to verify the identity of one of the secret characters ("VAN", pin no. 1234). We were later told that he was a player who had won an *NBA HangTime* tournament and had his likeness included in *NFL Blitz* as part of the prize package. Unfortunately, the mystery man was left out of the home versions of the game.

August 1998

We liked *Mission: Impossible* enough to make it our cover story; unfortunately, actor Tom Cruise (who starred in the film that the game was based on) refused to allow his likeness to be associated with anything but the movie, so we were stuck with this Herman Munster-looking guy. That's OK, though. There was plenty of other stuff inside to divert your attention, like killer strategy guides for *Tomba!*, *Vigilante 8* and *Jersey Devil*, along with preliminary coverage of Sega's still-mysterious new Dreamcast system.

Item Duplication Trick

You'll need two controllers for this trick. Pause the game and select the "Change Players" menu, then select a new character (preferably Dorn, since he can carry more). Drop whichever items you want to duplicate and have the second player pick them up. Next, save your game and transfer the items back to your primary character. Enter the "Change Players" menu again and import the second character from the fresh save. That character will have the items that you just dropped as well, so you can sell off any duplicates, have them both equip the same item or break items down at the shop and recover gems. With this trick, you can easily build up your inventory of gems and items by duplicating them and gain massive amounts of gold by selling the duplicate items.

Issue #46 December 1998

Over 200,000 copies of this issue were sold, a new *TIPS & TRICKS* record. 1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #48
February 1999

We put the word "EXPOSED" in big letters on this cover because we wanted to trick our pals at Atari Games into thinking that we were publishing the "nude code" from *Gauntlet Legends*. (We didn't actually do it until issue #54.) Geoff Arnold (now our Assistant Editor) wrote this issue's *Penny Racers* strategy guide back in 1998, but the game was delayed, so we put his article in storage. By the time we printed it, Geoff was in the middle of a four-month tour of duty in the Middle East as a member of the U.S. Air Force!

We tracked down Nintendo World Champion Thor Akerlund for this issue's *Tetris* feature, which also featured tips from the creator of *Tetris*, Alexey Pajitnov himself. Several months later, Nintendo gave us a tongue-in-cheek award for "the best strategy guide for a game that nobody needs a strategy guide for." (They probably didn't bother to read the article; there was a lot of useful info in there!) We actually leased a *CarnEvil* arcade game and kept it in the office for several weeks in order to do this issue's arcade strategy.

Ahhh, memories of our 50th issue: The *Syphon Filter* strategy guide took forever to complete. The *Silent Hill* strategy guide contained an important error which we were forced to correct in a subsequent issue (the solution to one of the puzzles in our pre-production copy of the game was changed in the final release). But the true gem in issue #50 was our strategy guide for the PlayStation cult classic *No One Can Stop Mr. Domino*. If you were able to beat this game without reading our tips, our hat is off to you.

Issue #52
June 1999

We're still not sure why all of the official artwork for the original *Super Smash Bros.* looked like stained glass windows, but it was a unique look that made for an interesting magazine cover. For a double-dose of Mario mayhem, we also included maps of the new two-player levels in *Super Mario Bros. Deluxe* on the Game Boy Color. Our *Ehrgeiz* strategy focused only on the game's Quest mode, which freed up some extra pages for *Bomberman Fantasy Race* course maps and Part 2 of our exhaustive *Guardian's Crusade* guide.

Issue #54
August 1999

Hitching a ride on the runaway Pokémon bandwagon, our Pokémon Snap strategy guide revealed all of the game's secrets, including the locations of the six hidden Pokémon symbols. This issue also contained one of our most notorious strategy guides, a complete walk-through for a game which most people would never dare to complete: Superman for the Nintendo 64. We actually got through an incredible 10 PAGES of coverage without once mentioning what a horrible, awful, malodorous game it really was.

After you beat the game, hold down **Left Trigger** when selecting "New Game" from the main menu to use a new costume.

Successive Play

After you beat the game and save your progress, loading that saved game will start a new game in Successive Play mode, which allows you to keep the Golden Scarabs that you have collected the first time through and use them in the new game beginning from Chapter 1.

Hidden Weapon

After you beat the game, the Dark Dragon Blade secret weapon can be found in the Hayabusa Ninja Village storehouse in Chapter 13 during the second time you play through.

Unlock Classic Ninja Gaiden Games

To unlock the classic *Ninja Gaiden* game, collect 50 Golden Scarabs and trade them in at Muramasa's shop.

To unlock *Ninja Gaiden II: The Dark Sword of Chaos*, you must have the original *Ninja Gaiden* in your inventory. In Chapter 4 or later, shoot an arrow at the face of the Clock Tower from the platform above the door that leads to Pleasure Street and Han's Bar. A treasure chest containing *Ninja Gaiden II* will appear on the roof of the building that houses the Clock Tower.

To unlock *Ninja Gaiden III: The Ancient Ship of Doom*, you must have *Ninja Gaiden II* in your inventory. At the Peristyle Passage in the Aqueduct, the *Ninja Gaiden III* disc can be found on top of the pillar that previously held a Golden Scarab.

To play the classic *Ninja Gaiden* games after collecting any of the discs, access the arcade machine on the first floor of Han's Bar in Tairon with the appropriate *Ninja Gaiden* game disc in your inventory. When you finish the game with any of the *Ninja Gaiden* discs in your inventory, a "Classic *Ninja Gaiden*" option will also be added to the main menu, allowing you to play the classic game(s) you've unlocked at any time.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

**Issue #58
December 1999**

After the unprecedented success of *GoldenEye 007* on the Nintendo 64, everybody was waiting with bated breath for the next James Bond game to hit the scene, and *007: Tomorrow Never Dies* reaped the benefits. Just to drive home the point that this was a video-game magazine and not *Entertainment Weekly*, we cut the gun out of Pierce Brosnan's photo and placed a PlayStation controller in his hand instead. This issue also introduced a new monthly column called *Pokémon Report*, which lasted for 23 straight issues.

"original *Spy Hunter*" code correctly, the special game will immediately appear instead. In this mode, use Right Trigger to accelerate and Left Trigger to shift between low and high gear.

February 2000

It's a bit of a culture shock to look at back issues and realize how much the video-game industry has changed in just a few short years. Back in February 2000, we were proud to feature strategy guides for cute-as-a-button games like *Chocobo's Dungeon 2*, *Tomba! 2* and *Dragon Warrior Monsters* without worrying for a minute about how old our readers were. These days, if you haven't got a bloody guy with a gun and a half-naked woman on your cover, everybody thinks your magazine is aimed at little kids.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #62
April 2000

There have been plenty of times when a *TIPS & TRICKS* strategy guide just grew to be too big to fit in a single issue, and when that happens, we're forced to make a difficult decision. Do we edit it down to fit the available space, or split it up into several installments? We definitely had to make that decision back in April of 2000 when *Pokémon Stadium* hit the States. Even though it ate up 12 pages of the issue pictured here, the sheer amount of raw data forced us to continue the strategy into the next two issues!

All Weapons=999

Pause the game and press Left, \square , \square , \square , Up, Δ , Δ , Δ , Right, \square , Down, \times , R1, R1, R1, R1, L1, L1, L1, L1, R2, R2, R2, L2, L2, L2, L2.

Toggle Minimum Speed

Pause the game and press Left, \square , \square , \square , Up, Δ , Δ , Δ , Right, \square , Down, \times , \square , \square , \square , Up. Now your minimum speed is zero; hold the L1 button to hover.

Hidden Camera Angles

Pause the game and press Left, \square , \square , \square , Up, Δ , Δ , Δ , Right, \square , Down, \times , Up, Down, Left, Right. Enter this code repeatedly for new views.

many of the passing ships and missiles as you can before a tiny bird can walk from the left side of the screen to the right. Use the L2 and R2 (or Left and Right) buttons to spin the symbol clockwise and counter-clockwise; if you don't press any buttons, you'll crash into the walls and die. Tap the R1 button to toggle between three different control configurations. Get a score of 4.60 or higher and you'll get something... but we're not sure what.

999,999,000 Credits

At the special CD loading menu, quickly press Down, \square , Δ , Δ , \square , \square , Δ , Δ , then press \square + Δ simultaneously twice and hold both but-

on the screen. Now quit to the main menu, where you'll find a new option called "Cheats"; this allows you to become invincible or start on any stage.

ANDRETTI RACING

Secret Cars
Choose the "Begin Career" option at the main menu and enter your name as "GO BEARS!". When the Season Setup menu appears, you'll have access to seven different stock cars instead of just one. If you enter your name as "GO BRUINS!" instead, you'll access six secret Formula 1 cars, including the cool black Team Andretti vehicle.

Secret Options Menu

At the Pause menu, highlight "Race Statistics", hold the **O** button and press **X**. You'll get a secret menu that allows you to adjust many different parameters of the race, including drafting, tire wear, centrifugal force and the speed of your opponents' cars.

APOCALYPSE

Cheat Codes

ARC THE LAD COLLECTION

Hidden Game
Load the "Making of Arc the Lad" disc, then—when the menu appears—press **O**, **X**, **O**, **△**, **△**, **O**, **X**, **O**, **START**. A hidden checkers game called "Arc the Lad Slime Time!" will appear.

CD Debug Menu

Load the "The Making of Arc the Lad" disc, then—when the menu appears—press **O**, **O**, then **O** seven times, then **△**, then **START**. A menu will appear, showing you the names of all the files and folders in the root directory of the CD. If you change discs, you can refresh the menu by pressing **START**...and if you highlight the name of an executable file and press **X**, the PlayStation will run that program. The main program file in most PS one games has a filename that begins with the letters "SLUS" or "SCUS"—but you wouldn't want to execute these files anyway, because doing so will usually just launch the game in question as if it had been loaded normally. Look for executable program modules which are meant to be run from within the main program, usually after certain conditions and variables have been set up. These usually have a .EXE extension, but not always. Because you may be skipping important parts of a game's loading sequence by doing this, executing such files will usually crash the PlayStation and you'll be forced to start over. However, some games have very interesting features which can be accessed this way. A few examples:

Motor Toon Grand Prix—Execute the "REXE" file to play the hidden "Motor Toon Grand Prix R" mini-game

Alundra—Execute the "END.EXE" file to view the ending, or the "CLOSING.EXE" file to view the credits

Jersey Devil—Load the "CREDITS.EXE" file to view the ending credits

Zero Divide—Load the "RETURN.EXE" file to play the secret "Tiny Phalanx" mini-game (with Controller 2)

If you mess around with this trick, please be aware that you'll be toying with your games in a way that's not approved by Sony or anybody else, so don't blame us if you get unpredictable results or if something screws up happens with your memory card.

AREA 51

Alien Mode

For this issue's *Chu Chu Rocket!* Dreamcast strategy guide, we created a special stage with the game's custom puzzle design tools and made it available online for players to download. The first five readers to send us a written description of how to solve the puzzle were awarded Dreamcast prize packages. While it didn't quite grow to *Pokémon Stadium* proportions, our *Syphon Filter 2* guide took up 14 pages and punished readers with poor eyesight by cramming all of the text into miniscule 6-point type.

Tips & Secrets

- If an enemy throws a barrel, tire or other object at you, you can catch it by pressing the Punch button as the object nears you.
- If you select the VR bonus before entering Stage 4, you can destroy the helicopter easily by using the VR to freeze all of the enemies just as the helicopter appears. Now you can ignore the enemies and concentrate on firing super batarangas at the helicopter.
- When the Monarch Bat makes its sweeping attack, press Punch + Kick to block; you won't take any damage. However, blocking will not protect you from the bat's fire attack.
- At the start of the game, if you jump on the hood of the Batmobile and stay there, you can prevent it from driving away so quickly.

BATTLE ARENA TOSHINDEN

Play as Gaia

Turn the game on and wait for the title screen to appear. While the words "1P GAME," "VS HUMAN," "VS COMPUTER" and "OPTIONS" are flying in from both sides of the screen, quickly press    before all of the text appears. You'll hear "Fight!" and the small text on the title screen will change from blue to pink. (If you don't get it to register the first time, you must wait for the demo to begin or start a game and cancel to return to the title screen; the code won't work if you're returning to the title screen from the Options menu.) At the fighter-select screen, highlight Eiji, hold Up on the D-pad and press any action button.

Play as Sho

First enter the Gaia code. Next, wait for the title screen to appear again as described above. This time, while the words are flying into the screen, press    on Controller 2; you'll hear "Fight!" again and the text will change from pink to a greenish color. With that code in place, start a game. At the fighter-select screen, highlight Kayin, hold Down on the D-pad and press any action button. To choose the alternate-color version of Gaia or Sho, press SELECT before you hold the appropriate direction on the D-pad as described while choosing each character.

Easy Desperation Moves

Visit the option menu and configure your controller so that the L and R buttons are set up to trigger "Special 1," "Special 2," "Special 3" and "Special 4"—setting A4 is a good example. Now you can trigger any character's desperation attack simply by pressing all four L and R buttons at exactly the same time whenever your energy bar is flashing red. Note that you can only choose the "special" control settings when the game's difficulty is set at "Easy" or "Very Easy"...unless you use the "Easy Special Attacks etc." code listed below.

Easy Super Moves

In addition to the desperation moves, each fighter in *Toshinden* also has up to three "Super" moves which are very difficult to execute, but can be used at any time during a match. Here's a list of the "Super" attacks, all shown as if your character is facing the right:

Eiji—           
Kayin—           
Sofia (1)—           
Sofia (2)—         
Rungo—
Fo (1)—
Fo (2)—
Fo (3)—
Mondo—
Duke—
Ellis (1)—
Ellis (2)—
Gaia—
Sho—

The "Super" moves can be more trouble than they're worth, since they're so difficult to pull off. To make things easier, try this: First, enter both "boss" codes to access Gaia and Sho as described above. With those codes in place, wait for the demo to begin again, then return to the title screen once more and press   on Controller 1 while the words are zooming in. You'll hear the word "Fantastic!" and the text will change to white. With this code in place, set the Control Type for all four "Specials" as described in the "Easy Desperation Moves" code above. Now, at any time during the game, you can trigger one of your character's "Super" attacks simply by holding the SELECT button and pressing all four L and R buttons at exactly the same time.

Easy Special Attacks at Any Difficulty Setting

Once you've entered all three title-screen codes as explained above, wait for the demo to start and return to the title screen as before. While the words are zooming into the screen, press    on Controller 2; you'll hear "Fantastic!" again and the text will change to yellow. With this code in place, you will be able to choose the "Special" Control Types—A3, A4, etc.—at any difficulty setting, not just "Very Easy" and "Easy".

Camera Controls

Go to the Options menu and choose any controller type that has all four of the top buttons

set to "NOT USE." Move down to the Camera Action setting; you'll find a new camera angle option called "Your Self." Choose it, and you'll gain access to eight new Control Type settings labeled A5 through H5, with "Camera X" and "Camera Y" functions assigned to the L and R buttons on top of the controller. Choose one of the new Control Type settings and start the game. The top buttons function as follows:

L1—Rotate counter-clockwise

R2—Tilt backward

R1—Rotate clockwise

R2—Tilt forward

With our monthly *Pokémon* column in full swing, we published this special all-*Pokémon* issue for rabid fans who just couldn't get enough of Pikachu and his pals. Reprinted inside were our *Pokémon Snap* strategy and all three installments of our *Pokémon Stadium* guide, plus a good deal of original content—including a special behind-the-scenes look at the creators of *Pokémon*. Did you know that the game's developer, Game Freak, has also made games for the NES, Super NES, Genesis and PlayStation?

To access additional camera controls, press the START button on Controller 1 to pause the game. While the "Pause" menu is on the screen, hold all four action buttons (   ) and press SELECT once to make the pause menu disappear; press it again to remove the energy bars. (Note: You can use this trick at any time, even if you're not messing with the camera angles. To restore the "Pause" menu and energy bars, just pause the game, hold the four action buttons and press SELECT one more time.)

While the game is still paused with the Pause menu and energy bars removed, the controller has six new secret functions:

L1—Pan left

R1—Pan right

D-pad Up—Pan up

D-pad Down—Pan down

L2—Zoom in

R2—Zoom out

Pressing the SELECT button repeatedly on Controller 2 allows you to step through the character animation one "frame" at a time;

When Activision offered to commission a Marvel Comics artist to create our *X-Men: Mutant Academy* cover, we had no idea who they would be able to "get"—all we asked was that the artist do it in the style of Jack Kirby, the late co-creator of the original X-Men. And even though Magneto appeared to be missing his left thumb, we were completely blown away by the final image. But who was the mysterious artist? As it turns out, it was former *Spider-Man* artist and *Savage Dragon* creator Erik Larsen! We wish we had the original artwork....

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #66
August 2000

It's always interesting to look back at old issues of any video-game magazine and see previews of games which were never released. In this issue's previews, we see *Resident Evil Zero* for the Nintendo 64; the game was eventually converted and re-released for the GameCube system in 2002. Seeing our *Metal Slug 3* strategy reminds us of the unusual fact that we printed strategy guides for the first, third and fifth games in the numerical series, but we never featured the even-numbered *Metal Slug 2* or 4. Weird!

See characters' ending sequences instead of opening sequences—**△, Right, △, Right, △, △, R2, R1, L1, L2, △, △**

cheat mode will be in effect anyway. Now start a new or saved game. At any time during the game, hold R1 and press O to refill your health and energy. This also gives you 2,000 extra credits, all of the items and all of the weapons with ammo.

Another Marvel Comics-related cover, this time featuring Activision's PlayStation hit Spider-Man. Instead of a comic-style line drawing, we wanted a computer-rendered image of Spidey—and since this was issue #68, we asked the artists to approximate the two-handed swinging pose seen on artist John Romita's illustration for the cover of The Amazing Spider-Man #68 from January of 1969. For the full old-school look, we even used the Spider-Man logo from the 1967 cartoon series instead of that awful pointy one that was created in 1994.

There are over 40 special monster types hidden in *Monster Rancher* that can only be found by using ONE specific CD in the Shrine. The following list tells you the names of some of the CDs you can use to get these special monsters. Please be aware that the CDs on the following list are not 100% guaranteed to work with *Monster Rancher* the way they

should. Occasionally an audio CD will be remastered or re-released with slightly different track listings; if there are several different "pressings" of a particular CD, it may happen that your copy of the CD in question will not be recognized by the game and will not give you the monster you're expecting. Also, some monster types are so rare that you will not be allowed to leave the shrine with them unless you have "committee permission" from FIMBA. If you get a message like this one, you must continue to play the game until you improve your grade as a breeder.

• The average monster will not live long enough for you to take it from the "E" ranking all the way up to "S" rank. There is a special food item in the game which will automatically increase your monster's lifespan by one year; otherwise, you should try not to push your monster too hard if it is tired, sick or injured. If your monster lives to be 10 years old, you will be rewarded with a special birthday song!

• Some special monster types can be created by combining two monsters in the Lab with the right item. For example, if your monster goes out exploring with Karn and finds a Magic Banana, take it to the Lab and use it when you combine two very lazy monsters; both should have a "style" rating of "Spoil." The result will be a rare Ape monster style.

• If you continue to play the game for many "years" of game time, new items will appear for sale in the item shop which will allow you to create rare monsters by using them when you combine monsters at the Lab.

• When your monster dies and you go to the shrine to create a new monster, there is a 1-in-16 chance that the new monster will be imbued with the spirit of the monster who died. A monster who is "possessed" in this way will not live long, but if you take it to the Lab and combine it with another monster, you may be rewarded with a rare "Ghost" monster type.

• To earn the rare "Doodle" monster type, breed a monster of the "Monolith" type until its "Fame" level rises above 80. Once you're there, allow the monster to lose battles until its Fame drops below 65; if this happens, the monster will become vandalized and change into the "Scribble" type. Combine the "Scribble" monster with another monster in the lab to get the "Doodle" type.

• To earn the extremely rare "Disc" monster, you must freeze a monster of the "Gooall!" type and another of the "Radial" type and combine them in the Lab.

MONSTER RANCHER 2

Secret Monsters

As in the original *Monster Rancher*, the best way to generate new and different monsters is by visiting the Monster Shrine and inserting different compact discs into your PlayStation; listen to the priest's instructions to find out how this is done. Any CD can be used, from your favorite music CDs to computer CD-ROM discs or even other PlayStation titles. The game reads some of the digital data from your CD and uses those numbers to generate a monster that you can raise on your farm. There are also many special monster types that can only be found by using ONE specific CD. For example, if you use Quiet Riot's *Metal Health* CD to create a monster, you'll get a creature called "Bloodshed" that you can't get from any other CD. The following is a list of these "special" CDs which can be used to create special monsters. Please be aware that the CDs on the following list are not 100% guaranteed to work with *Monster Rancher 2* the way they should. Occasionally an audio CD or PlayStation game will be re-mastered or re-released with slightly different track listings; if there are several different "pressings" of a particular CD, it may happen that your copy of the CD in question will not be recognized by the game and will not give you the monster you're expecting. *Tips & Tricks* apologizes for any such discrepancies you may encounter.

MORTAL KOMBAT 3

Play as Smoke

During the opening demo—anytime after the copyright screen appears—rotate the D-pad 360° clockwise until the "Ultimate Kombat Kode" prompt appears. Enter the code Dragon-MK-Dragon-Goro-Skull-Goro by pressing R1 once, △ six times, X six times and O nine times. You'll hear Shao Kahn say, "Out-standing!" and a message will appear to confirm the code. Smoke is now a selectable character in the one- or two-player modes.

Secret Cheat Mode

During the opening demo, quickly press X, O, △, R1, R1, R2, R2, R1, R1. You'll hear Shao Kahn say, "You will never win." Now press START; when the stone block appears with the word "KOMBAT" in red, press Up to access a secret cheat menu.

Turn "Free Play" on for infinite credits in the one-player mode. Turn "Smoke" on to activate him as a playable character without using the Ultimate Kombat Kode. Turn "Fatality Time" off to give yourself infinite time to perform fatalities. Turn "Level Select" on and you'll be able to choose any stage—including the Hidden Portal—from a menu at the bottom of the character-select screen after you choose your fighter. With "One Round Match" on, fights will last just one round, and with "One Hit Death" on, the first player to strike will automatically win the round.

If you're having trouble remembering this code, here's a simpler version: During the opening demo, press X, L1, L2. Now you can access a shorter version of the cheat menu without the "One Round Match" or "One Hit Match" options.

MORTAL KOMBAT 4

Secret Cheat Menu

Start a game in two-player mode; when the "vs." screen appears, enter the Kombat Code "3, Skull, 2, 2, 1, 3" as follows:

• Player 1: Press Low Punch three times and Low Kick twice

• Player 2: Press Low Punch twice, Block once and Low Kick three times

After the match starts, press START to pause and choose "Exit" to return to the main menu. Next, select "Options," highlight "Vs. Screen Enabled" and hold Run + Block. After a few seconds you'll hear a laugh; continue to hold the buttons down until the "Cheats" menu appears. Turn the "Endings" option on and you'll be able to see your character's ending sequence after winning just one match in one-player mode; the other three options allow you to perform fatalities with just one button press.

Secret Characters

To play as Goro or Noob Saibot, you must first enter the "Secret Cheat Menu" code shown above. Once that code is in place, start a game and follow these instructions at the character-select screen:

1) Highlight the "Hidden" box at the bottom of the screen, press Block and continue to hold it down.

2) To play as Goro, move the invisible cursor up to Shinnok (you'll have to listen to hear the cursor moving around so you'll know where it is), press Run and continue to hold it down.

To play as Noob Saibot, move the invisible cursor to Reiko, press Run and continue to hold it down.

3) Continue to hold Block + Run until the fight starts.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

In very general terms, it often happens that the last games released for a particular game system are among the best. They may not sell the most copies, but their graphics and gameplay features benefit from the developers having had several years to learn the subtleties of a console's performance limitations. This definitely was not the case with *The Simpsons Wrestling*, which made our cover because of the popularity of the *Simpsons* TV show and certainly not because of the game's quality, if you know what we mean.

Load the game *Dragon Buster* and press the △ button to access the dipswitch screen. Highlight switch #5 in the "SW2" box and press X to turn it "on." Now start the game. When the map screen appears, hold L1 + R1 + O and advance Clovis to either of the first two dungeons on the map. Instead of entering the dungeon, you'll be warped ahead to Round 2. You can continue to advance to higher rounds as long as you hold L1 + R1 + O; when you reach the round you'd like to start on, just release the buttons and you'll be able to enter the dungeons normally.

NAMCO MUSEUM VOLUME 3

Pole Position II Secret Courses

Load the game *Pole Position II* and press the △ button to access the options window. Highlight "Test" and press X; then, when the test screen appears, press △ to open the test screen options window. Highlight "Dip Sw" and press X, then press Up to turn on switch #1 in the left box. Now press △ twice and choose "Game" with the X button. When the game loads, press △ to open the options window again. You'll find a new option called "Course"; highlight it and press X to turn it on (you'll hear a chime). Now start the game and you'll find that the layout of all four courses has been changed; the "Test" course now has no turns at all. This code remains in effect until you shut the power off or return to the main Museum menu.

Galaxian Turbo Mode

Load the game *Galaxian*. When the demo sequence begins, press SELECT exactly 32 times to add credits. When the number of credits shown in the lower right corner of the screen is 32, press SELECT one more time and hold it down while pressing START. Now the game speed is many times faster than the original. This code remains in effect until you shut the power off or return to the main Museum menu.

Galaxian Hard Mode

Play the game *Galaxian* until you clear Round 9. After you've done this, press the △ button during the demo sequence to access the options window. Choose "Option" and you'll find a new option called "Rank." This allows you to change the game from "Normal" to "Hard" mode.

want to hide your players' stats from your opponent, hold Left and press Extreme (R2); the stats will disappear.

Extended Roster

Each of the NBA teams in *Jam T.E.* has more than three players available to choose from. To find these hidden bonus characters, just put the cursor on the team you'd like to choose, hold the SELECT button and rotate the D-pad in a counter-clockwise direction. A card will drop from the top of the screen that says "EXTENDED ROSTER"; now you'll see extra players as you toggle through the line-ups with the SELECT button. Note that if you choose the extended roster for one team, then decide to choose a different team, the extended roster will not be available for the second team. This trick also works at the "Substitution" screen.

Power-Up Codes

Just like all of the other versions of *NBA JAM*, the PlayStation *Tournament Edition* offers plenty of power-up codes. Each of these codes must be performed at the "Vs." screen, when the announcer is saying, "Tonight's match-up...etc." In most cases, you'll see text on the screen that tells you the code is in place. Some of the codes don't show you immediate results on the screen, but you'll know they have been activated if you see your player flashing white before the tip-off.

From the "Game Setup" screen, press O to open the menu. Move the cursor to "Players," then press Right and then X to enter the Create Player screen. Enter any of the following

names as the new player's name. Each line lists the name of the real player followed by the first and last name that you must enter to unlock that player, separated by a comma. For example, to unlock Charles Barkley, you must enter your newly created player's first name as MOUND OF and his last name as REBOUND. Note the space between the two words in the first name. After entering a name correctly, you'll get a message telling you that you've unlocked that player. In order to use unlocked players, you must go to the "Unlock Legends" screen and change their status to "Active."

It's very unusual for us to feature a sports game on our cover, but for *Madden NFL 2002* we were willing to make an exception. Sports video games are so incredibly realistic these days that a strategy guide can often seem unnecessary; we might as well be trying to teach you how to play the sport in real life! All-Star Weekend

Choose "Exhibition" from the main option menu; then, at the "Exhibition" menu, press R1, L1, R1, L1, R2, L2, R2, L2. You'll see a new

option called "All Stars" at the bottom of the screen. Set this option to "94/95" to play an exhibition match in Phoenix; the court will be decorated with the '94-'95 All-Star Weekend logo. Better yet, if you press R1, R1, R2, L1, L2, L1, L2 at the Exhibition menu, the "All Stars" option will also allow you to choose to play a game in San Antonio with the court decorated as it was for the '95-'96 All-Star game. The teams will be called "Western Conference" and "Eastern Conference", but the players will still be those from the team you select.

Sneak Peek

If you want to get a better look at the cheerleaders who appear during halftime, just hold the L1, L2, R1 and R2 buttons. The distracting game statistics will disappear.

THE NEED FOR SPEED

Hidden Tracks

Choose "One Player" from the main menu and select "Tournament" mode. Choose "Password" at the tournament menu and enter the password "TSYBNS", then press START. With this code in place, you can now return to the main menu and choose any game mode. When you reach the "Race Location" menu, you'll find a new, secret track called "Lost Vegas".

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

**Special Edition
Codebook**

Lots of changes were taking place in the video-game biz during 2001; this issue featured our last-ever Dreamcast strategy guide (for *Phantasy Star Online Ver. 2*) and our first-ever Game Boy Advance strategy guide (for *Fortress*). More importantly, our readers were being bombarded with previews and advertisements for GameCube and Xbox games, which were gearing up to join the PS2 in our monthly line-up. We were still clinging to the original PlayStation, though, as demonstrated by our *X-Men Mutant Academy 2* strategy.

"Rally" Tracks

With the cheat password in place, highlight any track and hold the L1 and R1 buttons. You'll see the name of the track change to "Rally"; this changes the pavement to a slippery dirt road like those in *Sega Rally*. If you hold L1+R1 while the "Rusty Springs" track is highlighted, you'll gain access to yet another secret hidden track; this one's a desert course called "Oasis Springs".

Secret Car

With the "TSYBNS" password in place as described, choose any game mode and access the car select screen. Highlight any car and hold L1+R1; now you can choose the top-secret "Warrior" car, a lightweight, futuristic vehicle that can zoom from zero to 60 in 3.5 seconds flat.

Arcade Mode

Again, with the "TSYBNS" password in place, get to the "Race Location" menu and highlight the "Segment View" (or lap-select) box. Hold L1+R1 and you'll see the words "Arcade Mode" appear. Start the game in Arcade Mode and you'll find that the game plays much more like a *Ridge Racer*-style arcade game instead of a full-on simulation.

Machine Gun Horn

Choose the Head-to-Head mode on the Race Type Screen. Select your vehicle, then pick your computer opponent's car. After selecting your opponent's vehicle, press and hold L1, Δ , and diagonally Up/Left on the D-pad until the race starts. You can now blow everything out of your way by pressing Up to honk the horn. The noise it produces will sound like a machine gun.

NEED FOR SPEED II

Extra Camera Angles

When the "Loading..." screen appears before a race—with the course map on the screen—press and hold L1 + R2 + Δ + Δ . Do not release the buttons until your car appears on the track. Now press the Δ button to cycle through the different camera angles; you'll find that there are now nine different camera settings instead of the usual four.

Cheat Passwords

Enter any of the following passwords from the options menu to activate different features:

L I L Z I P—Access Ford Indigo car
S H O T M E—Access Monolithic Studios track
P O W R U P—Upgrade all cars to Pioneer engines

Secret Vehicles

Each of the following passwords will give you access to a secret vehicle, but they're different from the Ford Indigo code (above) because you don't get to choose the secret vehicles from the car select menu. Instead, pick any car and set up all of the other race options. Finally, go to the options menu and enter one of the following passwords, then go immediately to the "Race" option at the main menu and you'll start the race with the secret vehicle you picked:

A R M Y M E—Army Truck
B E E T M E—Volkswagon Beetle
B M R M E—BMW
B N Z M E—Mercedes-Benz
B U G M E—Volkswagon Bug

To give Player 2 a secret vehicle, just change the last letters of any of these codes from "ME" to "U".

NEED FOR SPEED V-RALLY

Cheat Codes

Watch the game's loading sequence carefully; when you see the Infogrames logo begin to appear on a white background, quickly press Up, Down, then immediately hold the Δ button and press Δ . You should see the words

"LOCK OFF" in green letters, right in the middle of the screen; this allows you to access all of the tracks in Arcade or Championship mode. As soon as you see the words "LOCK OFF," if you release the Δ and \square buttons immediately you can enter any or all of the additional codes shown below; these buttons must be held down before the Infogrames logo is colored in and you must continue to hold them until the memory card message appears:

- Hold L1 and the words "TIME OFF" will appear; now the race won't end if the timer runs out in Arcade mode.
- Hold L2 and the words "NARROW ON" will appear; now the tracks will be more narrow in Arcade mode.
- Press Left, then press and continue to hold R2; the words "RESTART ON" will appear. This adds a "Restart" option to the "Pause" menu in both Arcade and Championship modes, allowing you to restart a race if something goes wrong.
- Press Left, then Right; the words "FULL DEBUG" will appear. Now you can see the programmers' debugging data on the screen and in a new "Pause" menu option called "Memory." Note: You can't use the "Restart" option if you enter this code.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #82 December 2001

Our final PlayStation cover featured *Dragon Warrior VII*, the best-selling game ever released for the PlayStation in Japan. The advertisement for *Star Wars: Rogue Leader* in this issue was withdrawn from most magazines because its image of a crashed, smoking TIE Fighter was considered insensitive in the post-September 11 climate. Only a handful of publications had already featured the ad before the decision was made to pull it, which makes this issue of *TIPS & TRICKS* desirable to some obsessive *Star Wars* fans.

If these three imposing figures were not enough to convince you that you needed to buy issue #84, a *Metal Gear Solid 2* strategy guide was our "Plan B."

• If you hold one of the action buttons down, then press another one, the word that's associated with the first button will come out automatically as soon as you take your finger off the second button. Try this at the beginning of Stage 1, Lesson 3: While holding the Δ button, press and release the ○ button repeatedly in a steady pattern. Parappa should say, "Kick, Punch, Kick, Punch, Kick, Punch" and so on, even though you're not pressing the Δ ("Kick") button more than once. This trick also doubles your speed; instead of getting one word for each button press, you're effectively getting two. Use this technique when you're "Rappin' Cool!" for lots of extra words and bonus points.

• One of the game's best-kept secrets is that it's possible to use the D-pad to change the order of the words that come out of Parappa's mouth. This only applies in lessons or stages where more than one word is assigned to a single button; for example, during Lesson 5 in Stage 3, you say, "I have never sold everything, everything" using only the X button. If you hold Left on the D-pad and press one of the buttons, it will "reset" the list of words that are associated with that button to the first word in the series. Similarly, if you hold Right on the D-pad while you're in the middle of that series of words, it will "hold" that word and let you repeat it as many times as you wish; when you release Right, you can continue with the rest of the series of words that are assigned to that button. Depending on when you apply the D-pad, you can make Parappa say, "I have never, I have never sold everything" or even "I have never, never, never sold everything." This is an important trick; not only does it make it easier to break the "Cool!" barrier in certain lessons, but if you use this method to mix up your raps when you're freestyling in "Cool!" mode, you'll earn more points!

Maximo: Ghosts to Glory graced the cover of our March 2002 issue, which also included strategy guides for *Pikmin*, *Mega Man X6* and *Star Wars: Obi-Wan*. Many American gamers don't know this, but *Maximo's* characters were designed by Susumu Matsushita, who also designed the characters for *Motor Toon Grand Prix* on the PlayStation but is much better known as the premier cover artist for Japan's long-running Weekly Famitsu video-game magazine. *Maximo* is also an unofficial sequel to Capcom's *Ghouls & Ghosts* series.

If you did it correctly, you'll be sent back to the previous menu. Now choose "Car Select" again and you'll find a new garage called "Special." Inside are a bus, a truck, a McLaren F1 and a scooter. You'll also find three new cars in Garage D.

RESIDENT EVIL

Rocket Launcher

If you finish the game in less than three hours, your saved game will allow you to start a new game with an all-powerful rocket launcher; it has infinite ammunition and can destroy just about everything with one shot.

Special Key

In the room with the large mirror, there's a locked closet that seems impossible to get into. To get the special key that unlocks this door, you must finish the game with two characters rescued (e.g. if you're playing as Chris, you must have Jill and Rebecca with you when you leave the mansion; Jill must rescue Chris and Barry). If you do this, your saved game will allow you to start a new game with the special key. Inside the closet, you can change your character's clothes.

RESIDENT EVIL: DIRECTOR'S CUT

Easier "Advanced" Mode

Choose "New Game" from the main menu, then highlight "Advanced" and hold Right on the D-pad for about four seconds; you'll see the word "Advanced" turn green. Now start the game in "Advanced" mode and you'll find that it's slightly easier than usual.

RESIDENT EVIL 2 PREVIEW (GEMO) DISC

"Rookie" Mode

Highlight "New Game" at the main menu and hold Right on the D-pad for about four seconds; a top-secret difficulty select option will appear, allowing you to play the game in the slightly easier "Rookie" mode.

RESIDENT EVIL 2

Secret Photo

In the S.T.A.R.S. office, check Wesker's desk—it's the one right in front of the S.T.A.R.S. logo. You'll get a message that says, "It's trashed. Someone must have searched the desk..." Continue to check this desk over and over again; on the 50th try, you will obtain a film. Take the film to the darkroom to develop it and you will get to see a secret photo of Rebecca from the original Resident Evil.

Alternate Clothes

Start a game in Normal Mode and go through the city area (including the gun store and the bus) without picking up any items. If you go to the alley by the stairs in the R.P.D. lot, you will meet a very special zombie: It's Brad Vickers, the helicopter pilot from the original Resident Evil. Enter the police department and get the rifle/grenade launcher from the S.T.A.R.S. room, then go back out and kill Brad

(you can't take him down with your normal gun). Next, check his body; you'll find a special key. This key opens the locker in the darkroom; if you open it, you will be able to change into a different set of clothing at any time.

Shoot the Camera

Go to the outside area in the basement where the two dogs jump down from the fence, stand with your back facing the manhole and walk forward until the camera angle changes. Now draw your rifle and shoot; "bullet holes" will appear on your TV screen!

Bonus Weapons

If you beat Scenario One with an "A" or "B" ranking and your total playing time is under two-and-a-half hours, you will get a rocket launcher with infinite ammo for your next game. If you beat Scenario Two with an "A" or "B" ranking in under three hours, you'll get a sub-machine gun with infinite ammo for your next game. If you beat Scenario Two with an "A" or "B" ranking in under two-and-a-half hours, you get both of these "infinite ammo" weapons plus a Gatling Gun, also with infinite ammo. You'll find the bonus weapons in the chest.

Secret Character: Hunk

To play as the bio-suit guy from the opening movie, you have to achieve an "A" Ranking in either Leon or Claire's Scenario Two; to do so, you must beat the scenario in under three hours without using any of the "infinite ammo" bonus weapons (see above). When you finish doing this, you will be asked to save a second time after the normal Scenario One/Scenario Two save. The saved game will say "Hunk," choose this to play as him.

Secret Character: Tofu

To play as a giant suit, you must follow the instructions for playing as Hunk (see above). Once you've done this, you must continue playing until you have chained three sets of Scenario Ones and Scenario Twos (a total of six games). When you finish doing this, you will be asked to save an additional time. The saved game will say "Tofu," choose this to play as him. (Note: After you qualify for the "Hunk" save, you don't have to continue to get high rankings in order to access Tofu; just keep playing and always remember to save.)

RESIDENT EVIL: JONAS SHOCK VERSION

Extreme Battle Mode

Play through the game with either character and complete Scenario 2. After the credits roll, you will be rated as usual and a message will tell you that there is another mode. You will be asked to save the regular game and then it will ask you to save a second time for the Extreme Battle data. Extreme Battle mode can then be accessed by calling up the Load screen and selecting the EX Battle data from the Arrange Mode menu. If you're lucky enough to have kept a Scenario 2 save on your memory card from the original Resident Evil 2, you can use that with the Dual Shock version and simply complete the game to get Extreme Battle. When you beat the first level of Extreme Battle mode, you will earn the ability to play as Ada Wong; you can play as Chris Redfield if you beat the second level.

JUDGE CALDER

Extra Cars

If you earn a "perfect" in the Galaxian loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

Reverse Tracks

When you have completed the whole game—time trials and all—you'll earn the right to race on four new tracks, which are really the existing four tracks driven in the opposite direction.

Mirror Mode

When you start a race, drive forward a bit, then spin around and head back to the steel wall that says "Wrong Way". If you're going fast enough, you'll pass right through the wall to race in "Mirror Mode".

Galaxian 13

The game's toughest secret is the mysterious black car, which appears by the side of the road after you've completed the game—both forward and reverse tracks—in its entirety. If you can beat the black car by staying in front of him and allowing him to rear-end your vehicle all the way to the finish line, you can drive the car yourself and even save it on your memory card.

RIDGE RACER REVOLUTION

Extra Cars

If you earn a "perfect" in the Galaga '88 loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #87
May 2002

One of the most challenging—and yet, ultimately satisfying—tasks we have to perform at *TIPS & TRICKS* is the struggle to clear certain goals in a difficult game in order to get a single lousy photo of whatever happens when you accomplish that goal. Such was the case with *Virtua Fighter 4*. We suspected that no other magazine would have the skills necessary to get an actual photo of the secret character, Dural, unlocked and playable on the character-select screen, which is exactly why we tried so hard to get it...and we did!

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Codebook Summer 2002

For our Summer 2002 *Codebook*, we decided that the coverlines should advertise the number of games that we have tips for, as opposed to the usual total number of tips. While 1,150 games is not a total to sneeze at—how many do you have in your collection?—it's a much smaller number than the usual "Over 10,000 Tips!" screaming headline. Fans of our *Pencil Puzzles* were surprised to find nine all-new bonus puzzles inside this issue; some people just can't get enough of filling in those little squares!

race against you in the Time Trial mode as follows:

If you can beat these cars in the Time Trial mode, they will become available for you to race with in all game modes.

Choose "Time Trial", then at the main menu, highlight the "Start" box, hold the Brake button and press the Accelerator button; continue to hold both buttons down until the race starts. (You'll have to press the Accelerator twice because the Brake button will take you back to the title screen.) Now you're playing in Spinning Mode. When you reach a turn where it's possible to spin your car 360°, the words "Spinning Point" will appear on the screen. Try to spin your car around; it helps if you choose a vehicle with a low "grip" rating. When you finish the turn, a toy car will drive across the screen and show you your total points for that spin. After the race, watch the replay to see a chart that shows your score on each Spinning Point along with your total for the entire race.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #89
July 2002

For years, we had been looking for a way to get some *Dragon Ball Z* coverage into *TIPS & TRICKS*, and Atari's new *DBZ* games for the Game Boy Advance finally gave us the perfect opportunity to do so. We have a hard time doing strategy guides for card battle games (because of the large amounts of data that must be formatted into easy-to-read charts and tables), but we tackled two of them in this issue, *Dragon Ball Z Collectible Card Game* and *Lost Kingdoms*, the card battle role-playing game for the GameCube.

There were lots of guys wielding axes in this one, including Rau from *The Mark of Kri* and the cast of *Barbarian* for the PS2. Check out that cover image—doesn't Rau look like a baseball player staring down a pitcher from the batter's box? Sony should start to include guys like Rau, Ratchet, Clank, Jak and Daxter as secret characters in its 989 Sports games.

STREET FIGHTER ALPHA

Secret Characters

To play as a hidden character, highlight the "7" box on your side of the screen at the character-select menu and enter any of the following codes. All buttons shown refer to the default control configurations. Important note: Each of the following codes must be entered very quickly. If you can't get a code to work, it's because you didn't do it fast enough, so try again. Once the codes are in place, you can easily select the hidden characters by highlighting the "7" box and pressing Down.

You'll see her costume change to the way she looked in *Street Fighter II Champion Edition*; now her fireball is a "charged" move.

Play as "Shin" (True) Akuma

At the character-select screen with the "short-cut" turned off, highlight Akuma, hold the SELECT button for one second, release it, then move the cursor to the following characters in order, stopping for about a second on each one: Adon, Chun-Li, Guy, Rolento, Sakura, Rose, Birdie, Akuma, Bison, Dan, Akuma. Now press and hold SELECT for one second, then press an action button to choose Akuma before releasing SELECT. The D-pad directions for the above pattern is as follows: Start at Akuma, then Down, Right, Right, Down, Left, Down, Left, Down, Right, Right, Right.

Fight Against "Shin" (True) Akuma

Start a game in Arcade mode by choosing your character with a Punch button (or a Kick button if you're on the Player 2 side.) Play through seven matches without losing a round or using a continue, and get more than three "Perfect" victories. If you do this, "Shin" Akuma will appear before the eighth match as the final boss. If you lose to him, he will consider you to be inferior and he will not reappear.

Mid-Level Bosses

Play through five battles in Arcade Mode without losing a round and win more than five rounds with Super Combo or Custom Combo finishes. After your fifth win, a new mid-level boss character will appear and there will be a short dialogue on the screen between the two fighters.

Choose a Victory Pose

After you defeat your opponent—but before the "K.O." symbol appears—hold the SELECT button and one of the Punch or Kick buttons to choose from up to six different winning poses. Not all characters have six poses, however.

STREET FIGHTER ALPHA 2

After you defeat Guile, another level will open. Defeat all of the characters in this new level and the final boss will be Evil Ryu. If you defeat him, Evil Ryu will be selectable in any mode.

Unlock Shin Akuma

After you defeat Evil Ryu, yet another level will open. Defeat all of the characters in this level and the final boss will be Shin Akuma. If you defeat him, you will be able to choose Shin Akuma by highlighting Akuma at the character select screen and pressing L2.

STREET FIGHTER COLLECTION

Super Street Fighter II Turbo: Play as Akuma

At the character-select screen, highlight Ryu for four seconds, then T. Hawk for four seconds, then Guile for four seconds, then Cammy for four seconds, then highlight Ryu or Ken for four seconds, then hold down all three PUNCH buttons and the START button. If your timing is right, you'll see Akuma's silhouette on the match-up screen.

Super Street Fighter II Turbo: Play Against Akuma

Play a one-player game in Arcade Mode at any difficulty level without losing a single match; you must also try to defeat each opponent as quickly as possible. If your total playing time is long enough by the time you reach the final battle against M. Bison, you'll see Akuma jump into the screen and defeat Bison for you; now you must fight Akuma instead.

Super Street Fighter II Turbo: Remove Super Meter

At the character-select screen, choose your fighter with the (Jab) button, then release and quickly enter one of the following

codes before the airplane flies across the map:

For Ryu, Ken, Blanka, Zangief, Cammy, Fei Long, Balrog or M. Bison—Press Left and Right repeatedly on the D-pad while repeatedly tapping

For E. Honda, Chun-Li, Guile, Dhalsim, T. Hawk, Dee Jay, Vega or Sagat—Press Up and Down repeatedly on the D-pad while repeatedly tapping

If you've done this correctly, your character's color will change and you'll hear a shout to confirm. When the fight begins, you'll be playing without your Super meter.

Street Fighter Alpha 2 Gold: Play as Cammy

To unlock Cammy as a playable character in *Street Fighter Alpha 2 Gold*, you must play as M. Bison in Arcade mode and beat the game with a score that's high enough to take the #1 position on the High Score list. Once you've done this, enter your initials as "C A M"; now you can play as Cammy—in "Versus" mode only—by highlighting M. Bison at the character-select screen and pressing the START button twice.

Street Fighter Alpha 2 Gold: Alternate Characters

• To play as special versions of certain characters with no "Super" meters, simply press START while the character is highlighted at the character-select screen. This works for Ryu, Chun-Li, Ken, Dhalsim, Zangief, Sagat and M. Bison.

• If you press the START button twice while Ryu or Chun-Li are highlighted at the character-select screen, you can play as "Evil" Ryu or the *Street Fighter II Champion Edition* version of Chun-Li, respectively.

• To play as "Extra" Sakura (with six different costume color schemes) or "Shin" (True) Akuma, highlight Sakura or Akuma at the character-select screen and press START five times.

Issue #93
November 2002

This combination *Gundam/Robotech*/Armored Core cover may have had a harsh metal exterior, but its insides were also bright and happy, thanks to our *Kingdom Hearts* strategy guide and the first installment of our monthly *Animal Crossing* column. With monthly tips, town tunes, clothing patterns and an events calendar, it was as if two pages of *TIPS & TRICKS* had been ripped from *Mary Engelbreit's Home Companion* magazine. Maybe so...but let's see Mary Engelbreit bust out some *Vice City* cheats!

STREET FIGHTER: THE MOVIE

Play as Akuma

This cheat works in all modes except the "Movie Battle." To do it, you must press Up, R1, Down, L2, Right, L1, Left, R2 as fast as humanly possible at the character-select screen. If you've done the code correctly, you'll see a faint, scary image of Akuma in the TV monitor where your fighter's face is displayed. Now the devil fighter is at your command.

TEKKEN

Galaga Secrets

To continue playing the *Galaga* loading game as many times as you wish, just press the SELECT button whenever the screen displays your "Number of Hits." If you score a perfect 40 ships in the first round, the game will automatically continue to the next wave; there are eight waves in all. If you don't like using the D-pad to move your ship, you can use the L and R buttons on top of the controller. Holding the △ button gives you rapid-fire.

Double Ships

There are two ways to get twin ships in the mini-Galaga game.

Method 1: If you destroy a perfect 40 ships in the first wave with a total time of 18.5 seconds or less, you'll get the double ships for the second wave through the rest of the game.

Method 2: When you first load the game, wait for the PlayStation logo to appear, then hold Up, L1, △ and × on Controller 2 until the *Galaga* game starts. Now you can use the twin ships on the first wave.

Secret Character: Devil Kazuya

To play as Devil Kazuya, you must score a perfect "40" on all eight waves of the *Galaga* game without using more than one continue and without using Method 2 (described above) to get the twin ships. After you've done this, start the game in Arcade mode, highlight Kazuya and press the START button to choose his evil alter-ego.

Play as the Boss

You've probably noticed the extra characters that you can earn in *Tekken* by beating the game in Arcade mode. Each of the game's eight characters will "release" one additional fighter when you beat the game with him or her. If you beat the game with all eight characters, you'll earn an additional eight hidden characters to use in Arcade or two-player mode. To earn the big boss, Heihachi, as a playable character, you must beat the game with any character in Arcade mode without continuing. You may find it easier to do this if you visit the option menu and set the round time to 20 seconds; it also helps to choose one-round battles.

Hidden Character Demos

With the exception of Devil Kazuya, you can watch any of the game's fighters mixing it up in the demo mode. To do this, hold down the buttons as shown while the game is in demo mode:

Kazuya—Hold ↑ on the D-pad
Paul—Hold → on the D-pad
Law—Hold → on the D-pad
Jack—Hold → on the D-pad
Nina—Hold × on the D-pad

King—Hold \times on the D-pad
 Yoshimitsu—Hold \triangle on the D-pad
 Michelle—Hold \square on the D-pad
 Heihachi—Hold L1 + L2 + R1 + R2
 Lee—Hold L1 + L2 + R1 + R2 + \times on the D-pad
 Kuma—Hold L1 + L2 + R1 + R2 + \triangle on the D-pad
 Wang—Hold L1 + L2 + R1 + R2 + \rightarrow on the D-pad
 P. Jack—Hold L1 + L2 + R1 + R2 + \times on the D-pad
 Anna—Hold L1 + L2 + R1 + R2 + \triangle on the D-pad
 Armor King—Hold L1 + L2 + R1 + R2 + \times on the D-pad
 Ganryu—Hold L1 + L2 + R1 + R2 + \triangle on the D-pad
 Kunimitsu—Hold L1 + L2 + R1 + R2 + \square on the D-pad
 This also works on Controller 2. For example, if both players hold all four L and R buttons on top of both controllers, the demo will show Heihachi fighting Heihachi.

TEKKEN 2

Hidden Characters

When you beat the game in one-player mode with a particular character, the "boss" character you defeated will become available as a playable character in all game modes. When you play in one-player mode as one of the "boss" characters, you'll face Kazuya; beat him and he, too, will become a playable character. Beat the game as Kazuya and you will face Devil; defeat him to add Devil and Angel to your ranks. Finally, when playing in one-player mode, you must win Stage 3 with very little energy left; you'll hear the announcer say, "Great!" if you've met this requirement, and your next opponent will be Roger or Alex. Defeat him and you'll have all of the game's characters at your command. To play as Alex, highlight Roger and press either Kick button; to choose Angel, highlight Devil and press either Kick button. Note: You must have earned all of these characters to perform any of the following tricks:

- Kazuya's Purple Suit—Highlight Kazuya and press START to see his slick purple suit. This works in every game mode except Team Battle and can only be used by one player in a two-player game.
- Super-Deformed Characters—Hold the SELECT button before the "Vs." screen appears; your character will be inflated to super-deformed size. If you do this trick after you've already done it in the previous battle, you'll be even bigger.
- Punch-Out!! Mode—Hold the L1 and L2 buttons when choosing a character in any one-player mode. You'll be playing in a semi-first-person perspective with your character drawn in green wire-frame, just like Nintendo's classic *Punch-Out!!* arcade game. There's a small gauge near the upper left corner of the screen that helps you to judge your distance from your opponent.
- Super Juggle Mode—Hold SELECT and Up on the D-pad before the "Vs." screen appears; when the round starts, you'll hear an explosion sound. Now whenever you hear an attack that makes your opponent go up in the air, they will go much higher, which makes juggling more interesting.

TEMPEST X3

Power-Up Swarm

At the start of a stage in "Tempest X3" mode, shoot the first creature and fire your superzapper before the power-up reaches the top of the playfield; do not collect this first power-up. Now play normally and you will receive power-up items from nearly every enemy you shoot.

Cheat Codes

At any time during the game—at the title screen, menus or during the game—hold L1, R1, \triangle , \square , START, SELECT and Up/Left on the D-pad. You'll hear a loud grating noise to indicate that the master cheat code is in place. Once you've done this, you can do any of the following tricks during the game:

- Level Skip—Hold R1 and tap L1, then fire your superzapper. The screen will be cleared and you will advance to the next stage immediately.
- Trippy Mode—Hold L2 + R1 + \triangle + \times and press Up. The graphics will leave freaky trails of light on the screen; perfect for those mind-altering experiments at your next party.
- MOD Music—Hold L2 + R1 + \triangle + \times and press Right. The music will change to the .MOD music when you start the next stage.
- Remix Music—Hold L2 + R1 + \triangle + \times and press Left. The music will change to the remix music when you start the next stage.
- A.I. Droid—Hold L2 + R1 + \triangle + \times and press Down. You'll hear the A.I. droid say "Attack!".

Now if you can make it to through the current stage without losing a life or using the Level Skip cheat, the first power-up that appears in the next stage will give you the A.I. Droid.

High Score Trick

At the three-character High Score entry screen, enter your initials as "GAY". The blue shape in the background of the High Score screen will be changed to a spinning pink triangle.

Hidden Game Modes

Play until you earn the top spot on the High Score table; you must earn over 500,000 points to get there. Once you do this, the game will ask you to enter a five-character name in addition to the usual three-letter initials. Enter your name as "H.V.S."; those are spaces in the second and fourth positions. Save the game to your memory card. Now you'll find two new game modes at the main menu: "Tempest Plus" and "Tempest 2000".

TEN PIN ALLEY

Taunt Your Opponent

When your opponent is bowling, wait until the bowling meters appear, then hold L1 + L2 + R1 + R2 on your controller and press \triangle , \square , \times or \rightarrow ; each button corresponds to a different taunt.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Codebook Holiday 2002

Like the action figures and PVCs on the cover of our 1999 Codebook, this issue's cover featured a collage of all the plush video-game characters owned by the *TIPS & TRICKS* staff. Unfortunately, one of our coolest plushies—a promotional Tomba figure which we obtained with the release of *Tomba 2: The Evil Swine Return* for the PlayStation—was inadvertently left out of the mix. It's probably for the best, though; we still don't have any cheat codes for either of the two *Tomba* games, so his presence would have been misleading.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

We've mentioned previews of games which were never released, but this issue actually includes a complete strategy guide for an unreleased game! **Army Men: Sarge's War** was actually a very enjoyable GameCube game, and the pre-release "beta" version we used was complete and considered "reviewable" by the game's publisher, 3DO. Unfortunately, 3DO would close its doors before the game was released. As of this writing, **Sarge's War** is still hanging around, waiting for a publisher.

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Ho-hum...it's business as usual for the **TIPS & TRICKS** crew. Drawing maps for **The Legend of Zelda: The Wind Waker**, sneaking past alligators in **Indiana Jones and the Emperor's Tomb**, unlocking the secret characters in **Devil May Cry 2**, flirting with the neighbors in **The Sims**...it's all in a day's work for the #1 Video-Game Tips Magazine. The only thing out of the ordinary in our April 2003 issue was the preview of **Army Men: Sarge's War** for the GameCube...but you'll find out more about this game in the description of issue #99.

* "Game Mode" lets you use a limited version of the "tag team" option from the X-Men vs.

These Codebooks are basically "extra" issues of *TIPS & TRICKS* that are published about two weeks after our May and November issues come out. There's no separate staff producing them; the editors of *TIPS & TRICKS* have to find the time to produce 14 magazines each year instead of the standard 12. The issue pictured here was particularly difficult to pull together, because all of our spare time was being taken up by preparations for our 100th issue. Somehow, we found the time to create a fresh batch of Pencil Puzzles to go inside.

Street Fighter arcade game. To do this, set "Game Mode" to "Original", then start a game in Vs. Mode. At the character-select screen, Player 2 must choose the same characters that Player 1 has chosen, but in the opposite order. (For example: If Player 1 chooses Cyclops, then Ryu, Player 2 must choose Ryu, then Cyclops.) If you've done all this correctly, when the fight starts you'll see that each of the four characters has his or her own energy meter. During the match, if you press Fierce Punch + Roundhouse Kick simultaneously (that's L1 + R1 if you haven't changed the game's default control configuration) you will "tag out" and switch places with your partner, who enters with an immediate attack on your opponent.

* If you set the "Hyper Combo Gauge" option to "Full," your Hyper Combo Gauge will fill up to Level 3 automatically when playing in Vs. Mode.

Play as Apocalypse

First, you must beat the game in Battle Mode at any difficulty setting without losing a single round. Once you've accomplished this goal, start a game in Vs. Mode. At the character select screen, highlight Akuma, then hold the SELECT button and press any action button to lock in your choice. Apocalypse will now appear as your chosen character. Here are some of his moves:

+ + + + any button—Mace

Alternate Chun-Li Costume

Boss Codes

To play as ZULU, you must defeat the game at any difficulty setting with all of the characters, one at a time.

To play as XTAL, you must defeat the game at the "Normal" or "Hard" difficulty setting without using a continue; you must also defeat XTAL.

To play as NECO, you must play as XTAL or ZULU and defeat the game at the "Normal" or "Hard" difficulty setting without using any continues.

Flat-Shaded Turbo Mode

The coolest *Zero Divide* cheat has two steps: You must play the game until your total playing time is over 100 hours, and you must have performed a five-hit combo at any time. Once you've met both of these requirements, go to the Option menu, highlight the "Match Point" option, hold L1 + L2 + R1 + R2 on Controller 1 and press Down. You'll see the words "Shadow Obj" appear in the corner of the screen, just above the save counter. With this option in place, start the game and get ready for a surprise. The "Shadow Obj" option allows you to play the game with characters made of flat-shaded polygons instead of texture-mapped polygons; it also eliminates the background graphics. Not only does the game look different this way, but because the PlayStation is freed up from having to process all of those flashy texture maps, you'll find that the game's speed has been tripled, maybe even quadrupled! To disable the "Shadow Obj" option and return the game to normal, just highlight "Match Point," hold L1 + L2 + R1 + R2 and press Down again.

Hidden Game

Put *Zero Divide* into your PlayStation, hold the SELECT and START buttons on Controller 2 and turn the POWER switch on. Continue to hold the buttons down while the game loads; instead of *Zero Divide*, you'll get a hidden version of *Phalanx*, a classic Super NES shooter. Use Controller 2 to play the game.

A BUG'S LIFE

Stage Select

At the "Flik's Journey" screen, hold C_A and press the R button. Now point the analog joystick to the Right and you'll see that the entire game has been unlocked, allowing you to start at any stage.

AERO GAUGE

Extra Tracks & Vehicles

Note: You need two controllers to enter this code, and it can be difficult to get the timing right, so if it doesn't work the first time, try again. First, turn the game on and hold L + R + Z on Controller 2. When the title screen appears with the words "Push Start" flashing in red, quickly tap Up on the D-pad and the C_U button at exactly the same time (also on Controller 2); you must also be sure to release those two buttons at exactly the same time. Finally, press START or A on Controller 1 before the title screen disappears. If you've entered the code correctly, you should see two new courses at the track-select screen and five new vehicles to choose from, including one that's shaped like a Nintendo 64 controller. Press the R button repeatedly at the vehicle select screen to change the color of the N64 controller to red, green, blue, black or yellow.

Turbo Start

At the starting line, hold the A and B buttons. When the announcer says, "Set, Ready, GO!" release the B button just before he says "GO!" This gives you a speed boost at the start of the race.

Turbo Boost

During a race, hold the A button to accelerate, hold Z and point the joystick hard Left or Right, then release both buttons and quickly press A again. This is a difficult trick to perform, but if you do it successfully, you'll hear a sound and you'll get a burst of speed.

AEROFIGHTERS ASSAULT

Stage Select

When you turn the game on, wait for the Video System and Paradigm Entertainment logos to disappear, then enter the following code as soon as you see the planes flying in the introduction sequence: Up, C_U, Left, C_U, Down, C_U, Right, C_U, L, R, Z. You'll hear a sound to confirm that the code has been entered correctly. Next, choose "Main Game" from the Game Mode menu; a stage select menu will appear, allowing you to practice any stage. The save options are deactivated when this code is in place, so your regular game scores won't be affected.

Secret Character: Mao Mao

Wait for the words "Press Start Button" to appear on the title screen, then press C_U, C_U, C_U, C_U, C_U, C_U. At the "Pilot Select" screen, you'll find a new character called Mao Mao who pilots an F-15. Note: You may have already unlocked Mao Mao if you continued more than three times in the Tokyo stage.

Secret Character: Spanky

To access another secret character, you must complete the following requirements:

- 1) Earn more than 170,000 points by the end of the Pacific Ocean stage; this will allow you to play the first bonus stage, "Air Landing".
- 2) Clear the Tokyo, Pacific Ocean and Air Battle stages in less than 1,400 seconds; this allows you to play the Desert stage during daytime.
- 3) If you clear the daytime Desert stage, you'll access the second bonus stage, "Shuttle Defense".
- 4) If you clear the "Air Landing" and "Shuttle Defense" bonus stages, you'll enter the third bonus stage, "Goliath Defense," after the Fortress level.
- 5) If you clear the "Goliath Defense" bonus stage, you'll enter the fourth bonus stage, "Space," after the Antarctic Ocean and Ice Cave levels.
- 6) If you clear the "Space" bonus stage, you'll be able to access Spanky, an X-29 pilot.

BANJO-KAZOOIE

Secret Codes

Each of the following codes can be entered on the floor of the Puzzle Room inside the sand castle in the Treasure Trove Cove stage; just plot some eggs into Leaky the bucket so he'll drain the pond and you can walk inside. Use the Beak Buster move on the lettered tiles to spell out the code words as follows:

C H E A T L O T S O F G O E S W I T H M A N Y

B A N J O S—Infinite lives

C H E A T A N E R G Y B A R T O G E T Y O U

finite air when underwater

C H E A T B A N J O E G S F O R P L E N T Y O F E G G S—In-

finite eggs

For each code, you will hear a "Mool!" sound when you enter the first five letters; if you do not hear the "Mool!" during the first five letters, exit the sandcastle and go back in. You will not hear any special sounds when you enter the remaining letters of each code, so take your time and aim carefully.

Bottles' Bonus Codes

Enter Banjo's house, stand on the yellow lines on the carpet directly in front of the fireplace, then press the C_U button to enter the first-person camera view. Now look directly at the picture of Bottles on the wall; Bottles will give you a puzzle to solve. If you solve the puzzle, he will reward you with a secret code which you can enter in the sand castle in Treasure Trove Cove (as described above under "Secret Codes"). Note: Bottles will not allow you to access the puzzles until you have obtained the

puzzle piece from the sand castle. There are seven codes available if you can solve all of the puzzles. **IMPORTANT:** The codes are listed below for reference only; they will not work unless you actually earn them by beating the puzzles that release the codes.

BOTTLESBONUSONE—Big head for Banjo

BANJO-TOOIE

Cheat Codes

As you locate the Cheato Pages in the game and return them to Cheato, he will give you codes that you can enter by shooting eggs at the letters on the wall in the Code Chamber to spell the words. However, each of the codes that he gives you will not work until after he has told you about it. The following codes can be entered at any time after you've cracked open the Code Chamber, including six codes that have the same results as the ones that Cheato and Madame Grunty give you and several new ones. Once you've entered a code, check out the sign on the wall to the right of the letter board to turn each cheat on or off.

CHEATOSREHTAEF—This code has the same effect as Cheato's "FEATHERS" code; it doubles the maximum amount of feathers that you can carry.

CHEATOSGGE—This code has the same effect as Cheato's "EGGS" code; it doubles the maximum amount of eggs that you can carry.

CHEATOFOORPLAF—This code has the same effect as Cheato's "FALLPROOF" code; it allows you to fall from any height without losing energy.

CHEATOKCABYENO—This code has the same effect as Cheato's "HONEYBACK" code; it causes your energy meter to regenerate.

CHEATOXOBEKUJ—This code has the same effect as Cheato's "JUKEBOX" code; it allows you to listen to any of the game's music tracks by accessing the jukebox in Jolly's Inn at Jolly Roger's Lagoon.

CHEATOYGGIJTEG—This code has the same effect as Madame Grunty's "GETJIGGY" code; it activates the signs in Master Jiggwigg's temple that tell you where the jiggies are located in each stage.

CHEATOSUPERBANJO—With this code in place, both Banjo and Kazoie will run much faster.

CHEATOSUPERBADDY—Activate this code to make the game more challenging by speeding up all of the enemies.

CHEATOHONEYKING—Enter this cheat to completely disable the honeycomb meter and air meter; now you're invincible and can stay underwater or in toxic areas for as long as you want.

CHEATONESTKING—This cheat gives you unlimited eggs and feathers; your inventory will show that you have "LOTS" of every type.

CHEATOJIGGYWIGGY SPECIAL—This code unlocks all of the doors in the Isle O' Hags area, giving you access to all levels.

CHEATOGNIMOH—This code has the same effect as the "HOMING" code that you get from having Heggy hatch the pink egg; it improves your aim when firing eggs by causing them to change direction and curve toward any nearby enemy.

The remaining two cheats will not cause new menu items to appear on the wall in the code chamber; once you have entered them, their results will immediately become effective and will remain in place.

CHEATOCASTLIST—Unlocks a new option called "Character Parade" at the Cinema menu in Replay mode; this option is normally unlocked by collecting 90 jiggies. Note that this code will not work if you have already found 90 jiggies in any one of the three saved game slots; it also will not register if you have already entered the following code...

CHEATOPLAYITAGAINSON—Unlocks all of the items in Replay mode, including the "Character Parade" movie mentioned above.

Cheat Menu

Race on the Coventry Cove course in Championship mode until you see a barn on the right side of the road with two haystacks in

front of it. Drive through the haystack on the left and you will smash a hidden crate with a picture of a flower on it; you'll also hear a voice say, "Groovy!". Now return to the main menu and access the Options screen; you'll find a new option called "Cheats" at the bottom. Each item on the cheat menu must be "unlocked" before you can use it; you will unlock a new cheat each time you smash a flower crate in Championship mode. Issue #100 was a tough act to follow, but we clenched our teeth in determination and produced this special "death" issue featuring *Resident Evil: Dead Aim*, *Evil Dead: A Fistful of Boomstick* and *Castlevania: Aria of Sorrow* in all its gothic glory. This issue also featured exclusive interviews with two of Nintendo's most important game producers, *Mario* and *Zelda* creator Shigeru Miyamoto and *Takashi Tezuka*, the producer of *Animal Crossing* and director of *Super Mario World* and *The Legend of Zelda: A Link to the Past*.

DIDDY KONG RACING

Play as Drumstick

To play as Drumstick, you must first earn all of the trophies and amulets in all stages. Once you've done this, return to the main area where Taj can be found and look for the frogs that jump around in the watery area in front of the giant WizPig head. One of the frogs will have a red rooster comb on its head; if you touch that frog with your vehicle, Drumstick will be released.

Play as T.T.

To play as T.T. you must race on each course in Time Trial mode until T.T. comes out to challenge you; he won't appear until you beat the pre-programmed track record in a particular track by a fairly large margin. When he challenges you, you must defeat him in a race on that course. Once you beat him in a particular track, a small T.T. icon will appear when you select that track in Time Trial mode. When you beat T.T. and earn this T.T. symbol in every single track, T.T. will appear as a playable character.

Every issue of *TIPS & TRICKS* should have a picture of a video-game character picking his nose. Seriously, when *Metal Gear Solid 3* comes out, we're going to try to get a picture of Solid Snake picking his nose to put on our cover. That'll sell magazines. Same thing for *Halo 2* and *Grand Theft Auto: San Andreas*—our readers want to see these characters "digging for gold."

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #103 September 2003

Notice the blurb in the upper left corner of this cover. We had been going back and forth with a competing magazine, with us adding new codes to increase the total number of tips, and them adding one to our total, just for the sake of one-upmanship. We got tired of their lies and finally decided to give the most accurate tally possible; there were EXACTLY 3,837 tips inside, and we challenged anyone and everyone to "count 'em!" (Some readers actually did!) The other magazine went out of business four months later.

choose the "Edit Attributes" option. You can now set all attributes as high as you want; the "Points Remaining" counter will go into negative numbers.

- Watch Victory Animations**—Choose the "Zone 3—AFC" league, select the Japan team and change any player's name to "NORIE". Now choose "Road to World Cup 98" from the main menu; when the round select screen appears, press C + C + Z. A special screen will appear. 1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #104
October 2003

Like issue #28, our multi-platform *Soul Calibur II* cover was so well-liked by the game's creators that they asked for a poster-sized copy to display in their offices. We completed one full year of *Animal Crossing* coverage with this issue's installment, which turned out to be the last. Incredibly, the Neo•Geo platform was still chugging along, and our *SVC Chaos: SNK vs. Capcom* strategy guide revealed how to play as eight secret characters...including Mega Man Zero and a Martian from the *Metal Slug* series.

Just to give you an example: Page 40 featured a whopping 69 different screen shots, all smaller than a postage stamp. Get out your magnifying glass!

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #107
January 2004

Our second annual *Tony Hawk* cover featured the secret characters Iron Man and Gene Simmons of KISS, but *Tony Hawk* himself was nowhere to be seen. We had a lot of fun with this issue's *True Crime: Streets of L.A.* strategy guide. Since the *TIPS & TRICKS* editorial offices are located within the boundaries of *True Crime*'s realistic in-game map, we snapped some pictures of the real building where *TIPS & TRICKS* is produced and compared them to screen shots we took of the building as it appears in the game. It's pretty close!

1994 TIPS & TRICKS 10th ANNIVERSARY 2004

Issue #108 February 2004

With our fear of putting a *Final Fantasy* game on the cover having finally subsided, we devoted page 1 of this issue to the *otaku* gamer/Square fanboy’s dream come true: *Final Fantasy X-2*. We also kept those same fans in the loop with our comprehensive coverage of Square’s *Final Fantasy XII* press conference in Japan, which we had recently attended. Finally, we did our patriotic duty by providing a cheat code that allows the player to kill Osama Bin Laden in *Fugitive Hunter* for the PlayStation 2.

press Turbo five times, Jump once, Pass four times, then press Up. A message will appear to confirm each code.

Access Mirror Cars—Right, Up, Left, C, C, A, Right, Z. With this code in place, press C at the Car Select screen to change any car into a mirror-textured vehicle.

Non-Blur Mode—B, Left, Right, Up, Left, Z, Right. This code turns off the N64's "bilinear filtering" effects, making the graphics appear to be more "pixelated."

ZBuffer Mode—C, Z, B, Up, Up, Right. The ZBuffer is used by the N64 to determine if a pixel that is about to be drawn is in front or behind the pixel already on the screen. This buffer is exactly the same size as the buffer that contains the color information for each pixel. When you enter this cheat, the N64 continuously copies the current ZBuffer data into the color data, and the result is a freaky mess of colors on the screen. Enter the code again to turn ZBuffer Mode off.

See the Credits

Choose "Options" from the main menu, then highlight "The Load Configuration" option and press C, Right, Down, Z. You'll see the full credit sequence from the end of the game—not the abbreviated version that can be called up from the Options menu at any time.

We don't know how many will play but typically 55% will have the highest score possible score to Phase I, 43% to Phase II, 36% to Phase III, and 32% to Phase IV. Highest score in the final determines the winner. If players are still tied they will split the value of the grand prize they are playing for.
